# INFINITE CIRCULON®

- Independent lab tests prove that Circulon's **TOTAL® NON-STICK INTERIOR** outlasts **ALL** other non-sticks - **GUARANTEED!**
- A new **DISHWASHER SAFE**, non-stick exterior coating on a hard anodized body for easy cleaning and exceptional strength and cooking performance
- A revolutionary, fully stainless steel encapsulated, aluminium base makes Infinite Circulon suitable for all cooktop types, including **INDUCTION.**

# cooking

In developing our new Infinite Circulon range we've considered everything that makes good cookware good.

# outlasts all other cookware - guaranteed!

Infinite Circulon features our TOTAL® hard anodized food release system, which combines the unique hi-low relaxed wave technology with a state of the art non-stick formula.

The revolutionary fully encapsulated base makes it suitable for all cooktop types, including induction, and ensures even heat distribution with no 'hot spots' for a perfect cooking performance, every time.

The hi-low interior groove system gives a high resistance to abrasion and requires little or no oil when cooking, making for 'healthier' cooking.

## Infinite Circulon - cooking solutions by design...

The 'New' exterior coated hard anodized body is dishwasher safe and is complemented by close fitting, contemporary, stainless steel lids providing a controlled cooking environment, preserving nutrients and textures. The range also features stylish cast stainless steel handles, riveted to the pans for maximum durability and are oven safe up to 240°C/475°F.
